## **Independent Auditor's Report**

To the Members of the Board of Education Oak Lawn-Hometown School District 123

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Oak Lawn-Hometown School District 123 (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

# **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Oak Lawn-Hometown School District 123, as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

#### **Other Matters**

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis (pages 3-10), pension and postemployment related information, budgetary comparison information and related note (pages 52-59) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information, as listed in the table of contents, and the other information, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

# Management's Discussion and Analysis For the Year Ended June 30, 2020

The discussion and analysis of Oak Lawn-Hometown School District 123's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2020. The management of the District encourages readers to consider the information presented herein in conjunction with the financial statements to enhance their understanding of the District's financial performance.

## **Financial Highlights**

- The liabilities and deferred inflows of resources of the District exceed its assets and deferred outflows of resources at the close of the fiscal year by \$15.6 million.
- In total, net position increased by \$2.0 million.
- General revenues were \$45.0 million or 64.0 percent of all revenues. Program specific revenues, in the form of charges for services and grants, were \$25.3 million or 36.0 percent of total revenues of \$70.6 million.
- Overall, the combined revenues of the District's governmental funds were \$1.3 million more than
  expenditures. Additionally, the District issued \$0.7 million of debt during the year. The District's
  governmental funds' combined fund balance increased to \$23.5 million from \$21.4 million in the
  prior year. Of the year-end balance, \$14.6 million is available for spending at the District's
  discretion (unassigned fund balance).

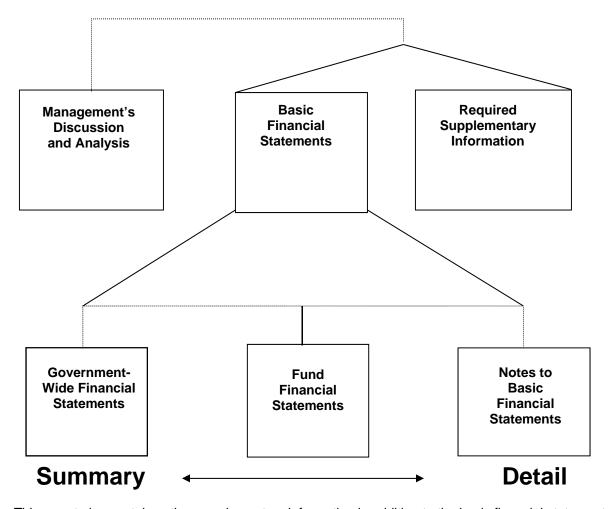

## **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to basic financial statements

Figure 1 shows how the various parts of this annual report are arranged and relate to one another.

Figure 1
Organization of Oak Lawn-Hometown School District 123 Annual Financial Report

This report also contains other supplementary information in addition to the basic financial statements.

#### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all District assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported when revenue is earned and expenses are incurred. Additionally, activity related to the acquisition, depreciation and year-end balances of capital assets, as well as year-end balances and related changes in long-term debt, are reported.

# Management's Discussion and Analysis For the Year Ended June 30, 2020

The government-wide financial statements present the District functions that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, community services and non-programmed charges.

#### Fund Financial Statements

A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the District funds can be divided into two categories: governmental funds and fiduciary funds (the District maintains no proprietary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances of the General Fund and Debt Service Fund, which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

#### Notes to Basic Financial Statements

The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

# Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's pension plans, postemployment healthcare plan, and budgetary comparison information.

# Management's Discussion and Analysis For the Year Ended June 30, 2020

# **Government-Wide Financial Analysis**

**Net position**. The District's net position increased by 11.4 percent compared to the prior year. At yearend, total net position was \$(15.6) million (see Table 1).

The District's financial position is the product of many factors. However, several events of the last year stand out:

- Total assets increased by \$1.1 million in the current year due to a \$0.4 million fair market value adjustment of the District's investments at yearend and due to a \$0.7 million bond issuance which increased working cash.
- Deferred outflows increased by \$0.3 million in the current year as a result of pension and OPEB actuarial adjustments.
- Total liabilities decreased by \$1.3 million in the current year due to principal payments made on the District's long-term debt.
- Deferred inflows increased by \$0.6 million in the current year as a result of pension and OPEB actuarial adjustments.

Changes in net position. The District's total revenues were \$70.3 million. Taxes and evidence based funding were 62.6 percent of the total or \$44.3 million (see Figure 2).

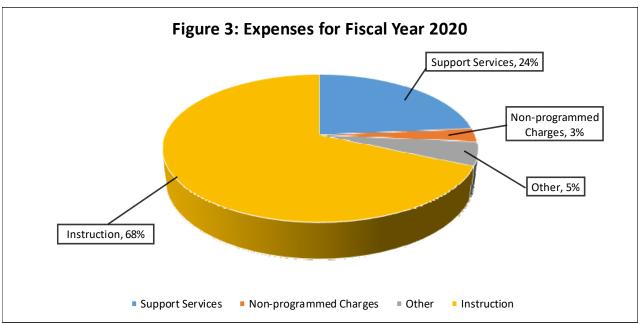

State and federal aid for specific programs brought in an additional \$23.6 million of the total revenues.

The total cost of all programs and services was \$68.3 million. The District's expenses are predominantly related to instruction and support services (caring for and transportation of students, etc.). These expenses accounted for 92.0 percent of the total (see Figure 3). The District's other activities were 8.0 percent of total costs.

Total revenues exceeded expenses, increasing net position by \$2.0 million over last year.

# Management's Discussion and Analysis For the Year Ended June 30, 2020

# Management's Discussion and Analysis For the Year Ended June 30, 2020

# Financial Analysis of the District's Funds

As the District completed the year, its governmental funds reported combined fund balances of \$23.5 million. Revenues for the District's governmental funds were \$60.8 million, while total expenditures were \$59.4 million.

# **General Fund Budgetary Highlights**

While the District's budget for the General Fund anticipated that the fund have a surplus of \$0.6 million, the actual result for the year was a surplus of \$1.8 million. Higher than anticipated restricted state and federal aid, interest and debt issuance resulted in the actual surplus being greater than expected.

# **Capital Asset and Debt Administration**

## Capital Assets

By the end of 2020, the District had invested \$76.2 million (before accumulated depreciation of \$38.5 million) in a broad range of capital assets, including buildings (both school and administration facilities), equipment (computer, audio-visual, transportation and maintenance equipment, and furniture), and land and improvements. (See Table 3.) (More detailed information about capital assets can be found in Note 3 to the financial statements.)

Depreciation expense for the year was \$1.8 million. Additions to land improvements, building and improvements, and equipment (including transfers from construction in progress) approximated \$0.1 million.

| Table 3   |         |         |            |

# Management's Discussion and Analysis For the Year Ended June 30, 2020

#### Long-Term Obligations

At year-end, the District had \$39.4 million in general obligation and capital appreciation bonds outstanding, as shown in Table 4. (More detailed information about the District's long-term obligations is presented in Note 4 to the financial statements.)

|    |      |             |                        | Total  |
|----|------|-------------|------------------------|--|
|    |      |             |                        | Percentage                                       |
| :  | 2020 |             | 2019                   | Change   |
|    |      |             |                        |  |
| \$ | 8.7  | \$          | 9.4                    | 11.5%  |
|    | 30.7 |             | 32.3                   | 2.3%   |
|    | 0.6  |             | 1.0                    | 18.2%  |
|    | 0.1  |             | 0.1                    | 0.0%   |
| \$ | 40.1 | \$          | 42.8                   | 4.9%   |
|    | \$   | 30.7<br>0.6 | \$ 8.7 \$ 30.7 0.6 0.1 | \$ 8.7 \$ 9.4<br>30.7 32.3<br>0.6 1.0<br>0.1 0.1 |

• The state limits the amount of general obligation debt the District can issue to 6.9 percent of the assessed value of all taxable property within the District's limits. Outstanding debt is significantly below the current limit of \$47.7 million providing a debt margin of \$32.7 million.

# **Factors Bearing on the District's Future**

At the time these financial statements were prepared and audited, the District was aware of the following existing circumstance that could significantly affect its financial health in the future.

- Legislation regarding pension liability cost shift
- Legislation regarding property tax freezes
- Legislation regarding school district consolidation

# **Requests for Information**

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Business Manager, Oak Lawn-Hometown School District 123 Administrative Center, 4201 West 93<sup>rd</sup> Street, Oak Lawn, Illinois 60453.

# Note 1. Summary of Significant Accounting Policies

## **Nature of Operations**

The District operates as a public school system governed by an elected seven-member board. The District is organized under The School Code of the State of Illinois, as amended. The District serves the communities of Oak Lawn and Hometown, Illinois.

The accounting policies of the District conform to accounting principles generally accepted in the United States of America as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies:

# **Financial Reporting Entity**

As defined by generally accepted accounting principles established by the GASB, the financial reporting entity consists of the primary government, as well as component units, which are legally separate organizations for which elected officials of the primary government are financially accountable. Financial accountability is defined as:

- 1) Appointment of a voting majority of the component unit's board, and either a) the ability to impose will by the primary government, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- 2) Fiscal dependency on the primary government and the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government.

Financial benefit or financial burden is created if any one of the following relationships exists:

- 1) The primary government is legally entitled to or has access to the component unit's resources.
- 2) The primary government is legally required or has assumed the obligation to finance the deficits of, provide support to, the component unit.
- 3) The primary government is obligated in some manner for the other component unit's debt.

Based upon the application criteria, no component units have been included within the reporting entity.

#### **Basis of Presentation**

**Government-Wide Financial Statements (GWFS):** The government-wide statement of net position and statement of activities report the overall financial activity of the District. Eliminations have been made to minimize the double counting of internal activities of the District. The financial activities of the District consist of governmental activities, which are primarily supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function (i.e., instruction, support services, etc.) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs (including fines and fees), and (b) grants and contributions that are restricted to meeting the operational requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

# Note 1. Summary of Significant Accounting Policies (Continued)

Fiduciary funds are excluded from the government-wide financial statements.

**Fund Financial Statements (FFS):** Separate financial statements are provided for governmental funds and fiduciary (agency) funds, even though the latter are excluded from the government-wide financial statements. The fund financial statements provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The remaining governmental funds are aggregated and reported as nonmajor governmental funds. Additionally, the District administers an agency fund that is used to account for assets held by the District in an agency capacity. These funds are held on behalf of the students of the District.

The District administers the following major governmental funds:

**General Fund** – This is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

**Debt Service Fund** – Accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt from governmental funds.

## Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

In the government-wide statement of net position and the statement of activities, governmental activities are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flow takes place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include various taxes, state-shared revenues and various state, federal and local grants. On an accrual basis, revenues from taxes are recognized when the District has a legal claim to the resources. Property taxes are recognized as revenues in the year they are levied (i.e. intended to finance). Grants, entitlements, state-shared revenues and similar items are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year.

Significant revenue sources which are susceptible to accrual include property taxes, other taxes, grants and interest. All other revenue sources are considered to be measurable and available only when cash is received.

Expenditures generally are recorded when the liability is incurred, as under accrual accounting; however, in the governmental fund financial statements, compensated absences are recorded only when payment is due (upon employee retirement or termination). General capital asset acquisitions are reported as expenditures in governmental funds.

# Note 1. Summary of Significant Accounting Policies (Continued)

# **Property Taxes**

Property taxes are levied each year on all taxable real property in the District on or before the last Tuesday in December. The 2019 tax levy was passed by the Board of Education on November 11, 2019, and attached as an enforceable lien on the property as of the preceding January 1. These taxes became due and collectible in March and September 2020 and were collected by the county collector, who in turn remits to the District its respective share. The District receives these remittances within one month of the collection dates. For the 2019 levy, the District recognizes no more than 55 percent of the prior-year levy less a 3 percent allowance in the current fiscal year as revenue with the remainder of the 2019 levy to be recognized in the following fiscal year; accordingly, the remaining amount is reflected as deferred inflows of resources this year. This methodology conforms to the measurable and available criteria for revenue recognition. Due to property tax collection through 60 days being sufficient to meet the availability criteria, the District was able to recognize 51 percent of the prior-year levy as revenue in the current fiscal year on the fund financial statements.

The Property Tax Extension Limitation Law imposes mandatory property tax limitations on the ability of taxing districts in Illinois to raise revenues through unlimited property tax increases. The increase in property tax extensions is limited to the lesser of 5 percent or the percentage increase in the Consumer Price Index for all Urban Consumers. The limitation includes taxes levied for purposes without a statutory maximum rate. The amount of the limitation may be adjusted for new property added or annexed to the tax base or due to voter approved increases.

#### Cash and Investments

Cash and investments consist of pooled cash and investments held by the Worth Township Trustees and are reported at fair value.

# Interfund Receivables, Payables, and Activity

**Loans** – amounts provided with a requirement for repayment. Interfund loans are reported as due from other funds in lender funds and due to other funds in borrower funds for short-term borrowings and advances to other funds in lender funds and advances from other funds in borrower funds for long-term borrowings. Amounts are eliminated in the government-wide statement of net position.

**Transfers** – flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

# Note 1. Summary of Significant Accounting Policies (Continued)

#### Capital Assets

Capital assets which include land, land improvements, buildings, and other equipment, are reported in the statement of net position. Capital assets are defined as assets with an initial individual cost of more than \$2,500, and an estimated useful life of greater than one year. Additions or improvements that significantly extend the useful life of an asset, or that significantly increase the capacity of an asset are capitalized. Expenditures for asset acquisitions and improvements are stated as capital outlay expenditures in the governmental funds.

These assets have been valued at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at their acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Depreciation of capital assets is recorded in the statement of activities with accumulated depreciation reflected in the statement of net position and is provided on the straight-line basis over the following estimated useful lives:

Buildings 15 - 50 years
Land improvements 20 years
Equipment 5 - 20 years

#### Deferred Inflows or Deferred Outflows of Resources and Unearned Revenue

Deferred inflows of resources are the acquisition of net position or fund balance that is applicable to future reporting periods. Deferred outflows of resources are the consumption of net position that is applicable to future reporting periods.

Property taxes that are received or recorded as receivables prior to the period the levy is intended to finance are recorded as deferred inflows of resources on both the fund financial statements and government-wide financial statements. Intergovernmental revenue is recorded as deferred inflows of resources on the fund financial statements when it has not yet met both the "measurable" and "available" criteria for recognition in the current period.

For pension and other postemployment benefits (OPEB) plans, the net difference between projected and actual earnings on plan investments, changes in assumptions and differences between expected and actual experience, the change in proportion and differences between employer contributions and proportionate share of contributions for and payments made subsequent to the plan's measurement date are reported as deferred outflows or inflows of resources on the government-wide financial statements.

Unearned revenues arise when resources are received by the District before it has legal claim to them. In subsequent periods, when revenue recognition criteria are met or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the financial statements and revenue is recognized.

# Compensated Absences

Certified employees working less than 12 months a year do not earn vacation days, however, full-time 12 month employees earn 5 to 25 vacation days per year which vest as they accrue. Staff may accumulate a maximum of 5 vacation days. Days are paid out upon resignation or retirement at the employees' current daily rate. Vacation pay includes the actual salary plus salary-related payments.

# Note 1. Summary of Significant Accounting Policies (Continued)

All employees receive 14 sick days per year, three of which may be used for personal business, and these days accumulate to no maximum. These accumulated sick days do not vest and have not been recognized as a liability as they will not be paid in cash. Upon retirement, bargaining unit employees are paid \$30 per day for each day not used for TRS/IMRF purposes. Up to 340 days may be contributed toward retirement. Certified employees are not paid for days contributed toward TRS/IMRF retirement. Bargaining unit employees who quit, rather than retire, are not paid out any sick days but may contribute them toward early retirement.

The General Fund is typically used to liquidate these liabilities.

# Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations, including pension liabilities, compensated absences and postemployment benefits other than pension benefits are reported as liabilities in the statement of net position. Bond premiums and discounts are recorded as liabilities and amortized over the life of the bonds. Deferred losses on refunding are amortized over the life of the bonds and are reported as deferred outflows of resources in the statement of net position.

In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures or expenses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Illinois Retirement Fund (IMRF), and the Teachers' Retirement System (TRS) and additions to/deductions from IMRF's and TRS's fiduciary net position have been determined on the same basis as they are reported by IMRF and TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Teachers' Health Insurance Security Fund (THIS) OPEB Plan and additions to/deductions from the THIS Plan's fiduciary net position have been determined on the same basis as they are reported by the THIS Plan. For this purpose, the THIS Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments, if any, are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense of the District's OPEB plan, information has been determined based on the District's actuary report. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

# Note 1. Summary of Significant Accounting Policies (Continued)

#### **Net Position**

The statement of net position presents the District's non-fiduciary assets and liabilities with the difference reported in three categories:

**Net investment in capital assets** consists of capital assets and deferred outflows of resources that are attributable to the acquisition, construction, or improvement of those assets, net of accumulated depreciation and reduced by outstanding balances for bonds.

**Restricted net positions** result when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

**Unrestricted net positions** consist of net positions that do not meet the criteria of the two preceding categories.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

#### **Fund Balances**

Within the governmental fund types, the District's fund balances are reported in one of the following classifications:

**Nonspendable** – includes amounts that cannot be spent because they are either: a) not in spendable form; or b) legally or contractually required to be maintained intact. At June 30, 2020, the District had no nonspendable fund balances.

**Restricted** – includes amounts that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

**Committed** – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District's highest level of decision-making authority rests with the District's Board of Education. The District passes formal resolutions to commit their fund balances. At June 30, 2020, the District had no committed fund balances.

Assigned – includes amounts that are constrained by the District's *intent* to be used for specific purposes, but that are neither restricted nor committed. Intent is expressed by: a) the District's Board of Education itself; or b) a body or official to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. The District's Board of Education has not delegated authority to any other body or official to assign amounts for a specific purpose within the General Fund. Within the other governmental fund types (special revenue, debt service, capital projects) resources are assigned in accordance with the established fund purpose and approved budget/appropriation. Residual fund balances in these fund types that are not restricted or committed are reported as assigned. At June 30, 2020, the District had no assigned fund balances.

# Note 1. Summary of Significant Accounting Policies (Continued)

**Unassigned** – includes the residual fund balance that has not been restricted, committed, or assigned within the general fund and unassigned deficit fund balances of other governmental funds.

It is the District's policy to consider restricted resources to have been spent first when an expenditure is incurred for which both restricted and unrestricted (i.e., committed, assigned or unassigned fund balances) are available, followed by committed and then assigned fund balances. Unassigned amounts are used only after the other resources have been used.

The General Fund includes the Working Cash stabilization account. Under the State of Illinois School Code (School Code), the District is authorized to incur indebtedness and issue bonds and to levy a tax annually on all taxable property of the District in order to enable the District to have in its treasury at all times sufficient money to meet demands thereon. These funds may be lent to other District governmental funds in need, but may only be expended for other purposes upon the passage of a resolution by the Board of Education to abolish or abate the fund. At June 30, 2020, the District had working cash stabilization fund balances of \$11,437,257 that have been classified as unassigned fund balances in the general fund.

#### Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the period. Actual results could differ from these estimates.

# Note 2. Cash and Investments

#### **Deposits**

State statutes authorize the District to make deposits directly or through its Township Trustees in interest-bearing depository accounts in federally insured and/or state chartered banks, savings and loan associations and credit unions. As of June 30, 2020, the District had deposits with federally insured financial institutions of \$5,000 with bank balances totaling \$4,800. The agency fund had deposits with federally insured financial institutions of \$97,362 with bank balances totaling \$97,362.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District policy is to have all bank balances fully insured or collateralized. As of June 30, 2020, none of the District's bank balances were exposed to custodial credit risk.

## Investments

As of June 30, 2020, the District had the following investments:

|   | Fair Value    | Investment<br>Maturities<br>(In Years) |
|---|---------------|--|
| Pooled cash and investments held by the Worth Township Trustees | \$ 25,734,969 | N/A                                    |

# Note 2. Cash and Investments (Continued)

The value of pooled cash and investments held by the Worth Township Trustees is based on the fair value of the underlying securities at June 30, 2020, as determined by the Worth Township Trustees.

Of the total pooled cash and investments held by the Worth Township Trustees, maturities are approximately as follows: less than one year (15.63 percent), one to five years (30.43 percent), 6 to 10 years (33.33 percent), and greater than 10 years (20.61 percent). The pooled accounts hold the following types of investments: U.S. Treasury Securities, Federal National Mortgage Association (FNMA), Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), Federal Home Loan Mortgage Corporation (Freddie Mac), Government National Mortgage Association (Ginnie Mae), Municipal Bonds, Commercial Paper, Money Market Mutual Funds and Money Market Accounts.

Interest Rate Risk - The District's investment policy does not limit its investment portfolio to specific maturities.

Credit Risk - State statutes authorize the District to invest directly or through its Township Trustees in direct obligations of, or obligations guaranteed by, the United States Treasury or agencies of the United States and short-term obligations of corporations organized in the United States with assets exceeding \$500,000,000.

The District is also authorized to invest directly or through its Township Trustees in the Illinois School District Liquid Asset Fund Plus and the Illinois Funds, which invests member deposits, on a pooled basis, primarily in short-term certificates of deposit and in high-rated, short-term obligations of major United States corporations and banks.

Concentration of Credit Risk - The District investment policy requires that the investment portfolio is diversified as to materials and investments, as appropriate to the nature, purpose, and amounts of the funds. The policy does not limit the investments in any single issuer.

Custodial Credit Risk - Investments - For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

Information related to the interest rate risk, credit risk, concentration of credit risk, and custodial credit risk of the other cash and investments held by the Worth Township Trustees can be obtained from the Worth Township Trustees at 10720 South Kenton, Oak Lawn, Illinois 60453, which issues a financial report that includes financial statements and required supplementary information.

The deposits and investments are presented in the basic financial statements as cash and investments as follows:

Statement of Net Position (GWFS)
Statement of Fiduciary Assets and Liabilities (FFS)

\$ 25,739,969 97,362

\$ 25,837,331

# **Notes to Basic Financial Statements**

# Note 3. Capital Assets

Capital asset balances and activity for the year ended June 30, 2020, are as follows:

|  | Balance       |                |             | Balance       |
|--|---------------|----------------|-------------|---------------|
|  | July 1, 2019  | Additions      | Retirements | June 30, 2020 |
| Governmental activities:               |               |                |             |               |
| Capital assets, not being depreciated: |               |                |             |               |
| Land                                   | \$ 4,755,000  | \$ -           | \$ -        | \$ 4,755,000  |
| Total capital assets                   |               |                |             |               |
| not being depreciated                  | 4,755,000     | -              | -           | 4,755,000     |
|  |               |                |             |               |
| Capital assets, being depreciated:     |               |                |             |               |
| Land improvements                      | 3,199,502     | 79,101         | -           | 3,278,603     |
| Buildings and improvements             | 62,294,573    | -              | -           | 62,294,573    |
| Equipment                              | 5,827,484     | 33,708         | -           | 5,861,192     |
| Total capital assets                   |               |                |             |               |
| being depreciated                      | 71,321,559    | 112,809        | -           | 71,434,368    |
|  |               |                |             |               |
| Less accumulated depreciation:         |               |                |             |               |
| Land improvements                      | (2,419,957)   | (87,346)       | -           | (2,507,303)   |
| Buildings and improvements             | (29,983,567)  | (1,233,063)    | -           | (31,216,630)  |
| Equipment                              | (4,318,824)   | (436,917)      | -           | (4,755,741)   |

| bonds                      | 32,280,264                                | 3,596,152    |    | (5,155,000) | 30,721,416                                 | 5,155,000                 |
| Unamortized bond premiums  | 3,566,911                                 | _            |    | (739,020)   | 2,827,891                                  | _                         |
| Capital leases             | 963,692                                   | -            |    | (334,422)   | 629,270                                    | 282,037                   |
| Compensated                | ,   |              |    | , , ,       | •  | ,                         |
| absences                   | 129,150                                   | 49,998       |    | (55,469)    | 123,679                                    | 82,469                    |
|                            | \$ 46,365,017                             | \$ 4,371,150 | \$ | (7,688,911) | \$ 43,047,256                              | \$ 7,424,506              |

Additions to capital appreciation bonds represent current year accreted interest.

The District's estimated legal debt limitation of \$47,654,661, based on 6.9 percent of the 2019 equalized assessed valuation of \$690,647,261, less outstanding debt of \$14,929,501 after deletion of cumulative accreted interest of \$24,536,915 included as principal payable in the above capital appreciation bond schedules results in an estimated legal debt margin of \$32,725,160 as of June 30, 2020.

# Note 4. Long-Term Obligations (Continued)

Interest rates range from 4.00 percent to 5.00 percent on the outstanding general obligation bonds and range from 9.00 percent to 13.50 percent on outstanding capital appreciation bonds. As of June 30, 2020, the future annual debt service requirements are as follows:

| Year<br>Ending                                    |   | Obligation onds   | Capital Ap<br>Bon   |  |  |
|---|---|---|---|--|--|
| June 30,  | Principal   | Interest  | Principal   | Interest   | Total  |
| 2021<br>2022<br>2023<br>2024<br>2025<br>2026-2028 | \$ 1,905,000<br>875,000<br>900,000<br>935,000<br>970,000<br>3,160,000 | \$ 294,445<br>268,446<br>240,432<br>205,400<br>167,300<br>236,450 | \$ 1,066,866<br>1,044,990<br>946,703<br>707,770<br>699,484<br>1,718,688 | \$ 4,088,134<br>4,775,010<br>4,873,297<br>5,112,230<br>5,855,516<br>18,746,312 | \$ 7,354,445<br>6,963,446<br>6,960,432<br>6,960,400<br>7,692,300<br>23,861,450 |
|   | \$ 8,745,000  | \$ 1,412,473  | \$ 6,184,501  | \$ 43,450,499  | \$ 59,792,473  |

Interest maturities include \$24,536,915 in accreted interest on capital appreciation bonds, which is included in long-term debt on the statement of net position.

## Note 5. Retirement Fund Commitments

## **Teachers' Retirement System**

Plan Description. The District participates in the Teachers' Retirement System of the State of Illinois (TRS or the System). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at <a href="http://trs.illinois.gov/pubs/cafr/fy2018">http://trs.illinois.gov/pubs/cafr/fy2018</a>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, Illinois 62794; or by calling (888) 877-0890, option 2.

Benefits Provided. TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

## Note 5. Retirement Fund Commitments (Continued)

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefits beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefits or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

Contributions. The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2020, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On behalf contributions to TRS. The state of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2020, state of Illinois contributions recognized by the District were based on the state's proportionate share of the collective net pension liability associated with the employers, and the District recognized revenue and expense of \$17,531,481 in the governmental activities based on the economic resources measurement basis and revenues and expenditures in the amount of \$9,169,729 in the General Fund based on the current financial resources measurement basis.

**2.2 formula contributions.** Employers contribute 0.58 percent of the total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2020, were \$132,057, and are deferred because they are paid after the June 30, 2019, measurement date.

**Federal and special trust fund contributions.** When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost.

For the year ended June 30, 2020, the employer pension contribution was 10.66 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2020, salaries totaling \$831,266 were paid from federal and special trust funds that required District contributions of \$88,613. These contributions are deferred because they were paid after the June 30, 2019 measurement date.

# Note 5. Retirement Fund Commitments (Continued)

**Employer retirement cost contributions.** Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. Additionally PA 100-0023 requires school districts to pay for a portion of the cost of a member's pension if that member's salary, determined on a full-time equivalent basis, is greater that the governor's statutory salary (currently \$177,500). The amount charged to the employer is the employer normal cost, or 10.66 percent.

For the year ended June 30, 2020, the District paid \$1,929 to TRS for employer contributions due on salary increases in excess of 6 percent. There were no payments for sick leave days granted in excess of the normal annual allotment. The District paid \$866 for member salaries in excess of the governor's statutory salary.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2020, the employer reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The state's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the employer were as follows:

| District's proportionate share of the net pension liability                           | \$ 2,268,810   |
|---|----------------|
| State's proportionate share of the net pension liability associated with the employer | 161,468,761    |
| Total   | \$ 163,737,571 |

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019, and rolled forward to June 30, 2020. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2019, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2019, the employer's proportionate share was 0.0028 percent, which was a decrease of 0.0001 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized the following pension expense/expenditure and revenue pertaining to the District's employees:

|  | <br>Sovernmental<br>Activities | General<br>Fund |
|--|--------------------------------|-----------------|
| State on-behalf contribution - pension revenue and expense/expenditure | \$<br>17,531,481               | \$<br>9,169,729 |
| District pension expense/expenditure                                   | (16,230)                       | 220,670         |
| Total pension expense/expenditure                                      | \$<br>17,515,251               | \$<br>9,390,399 |

## Note 5. Retirement Fund Commitments (Continued)

At June 30, 2020, the employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | <br>Deferred Outflows of Resources |    | Deferred Inflows of Resources |  |
|---|------------------------------------|----|-------------------------------|--|
| Differences between expected and actual experience Net difference between projected and actual earnings | \$<br>37,202                       | \$ | -                             |  |
| on pension plan investments   | 3,594                              |    | -                             |  |
| Changes of assumptions  | 50,837                             |    | 43,550                        |  |
| Changes in proportion and differences between employer  |                                    |    |                               |  |
| contributions and proportionate share of contributions  | 56,427                             |    | 1,451,064                     |  |
| Total deferred amounts to be recognized in pension expense  |                                    |    |                               |  |
| in future periods   | 148,060                            |    | 1,494,614                     |  |
| Employer contributions subsequent to the measurement date   | <br>220,670                        |    | -                             |  |
|   |                                    |    |                               |  |
|   | \$<br>368,730                      | \$ | 1,494,614                     |  |

The District reported \$220,670 as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date and this will be recognized as a reduction of the net pension liability in the reporting year ending June 30, 2021. Other amounts reported as deferred outflows or resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

## Year Ending June 30:

| 2021 | \$<br>(339,035)   |
|------|-------------------|
| 2022 | (403,317)         |
| 2023 | (407,947)         |
| 2024 | (190,609)         |
| 2025 | <br>(5,646)       |
|      | \$<br>(1,346,554) |

*Actuarial Assumptions.* The total pension liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

• Inflation 2.50 percent

Salary increases
 9.50 percent at one year of service, 4 percent at 20 years of service

• Investment rate of return 7.00 percent, net of pension plan investment expense, including inflation

In the June 30, 2019 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates are based on a fully-generational basis using projection table MP-2017. In the June 30, 2018 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2014.

## Note 5. Retirement Fund Commitments (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

|                                  |            | Long-Term            |
|----------------------------------|------------|----------------------|
|                                  | Target     | <b>Expected Real</b> |
| Asset Class                      | Allocation | Rate of Return       |
|                                  |            |                      |
| U.S. equities large cap          | 15.0 %     | 6.3 %                |
| U.S. equities small/mid cap      | 2.0        | 7.7                  |
| International equities developed | 13.6       | 7.0                  |
| Emerging market equities         | 3.4        | 9.5                  |
| U.S. bonds core                  | 8.0        | 2.2                  |
| U.S. bonds high yield            | 4.2        | 4.0                  |
| International debt developed     | 2.2        | 1.1                  |
| Emerging international debt      | 2.6        | 4.4                  |
| Real estate                      | 16.0       | 5.2                  |
| Commodities (real return)        | 4.0        | 1.8                  |
| Hedge funds (absolute return)    | 14.0       | 4.1                  |
| Private equity                   | 15.0       | 9.7                  |
|                                  | 100.0 %    |                      |

Discount Rate. At June 30, 2019, the discount rate used to measure the total pension liability was 7.00 percent, which was unchanged from the June 30, 2018 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2019, was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were not covered, so a long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

Payables to TRS. As of June 30, 2020, the District reported no payables due to TRS.

TRS Fiduciary Net Position. Detailed information about TRS' fiduciary net position as of June 30, 3019, is available in the separately issued TRS Comprehensive Annual Financial Report.

### **Illinois Municipal Retirement**

Plan Description. The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The district plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided. The District participates in the Regular Plan (RP). Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3 percent of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3 percent of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount.

*Employees Covered by Benefit Terms*. As of December 31, 2019, the following employees were covered by the benefit terms:

| Retirees and beneficiaries currently receiving benefits          | 153 |
|--|-----|
| Inactive plan members entitled to but not yet receiving benefits | 314 |
| Active plan members  | 135 |
| Total  | 602 |

## Note 5. Retirement Fund Commitments (Continued)

Contributions. As set by statute, the District's regular plan members are required to contribute 4.50 percent of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's required and actual contribution rates for the calendar years ending December 31, 2020 and 2019, were 11.26 and 9.36 percent, respectively. For fiscal year 2020, the District contributed \$448,371 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefit rate is set by statute.

*Net Pension Liability.* The District's net pension liability was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The following are the methods and assumptions used to determine total pension liability at December 31, 2019:

- The Actuarial Cost Method used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.50 percent.
- Salary Increases were expected to be 3.35 percent to 14.25 percent, including inflation.
- The Investment Rate of Return was assumed to be 7.50 percent.
- **Projected Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation according to an experience study from years 2014 to 2016.
- For Non-disabled Retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For **Disabled Retirees**, an IMRF-specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For Active Members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The Long-Term Expected Rate of Return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Note 5. Retirement Fund Commitments (Continued)

|                         |                | Projected Returns / Risk |           |  |  |
|-------------------------|----------------|--------------------------|-----------|--|--|
|                         | Target         | One year                 | Ten Year  |  |  |
| Asset Class             | Allocation     | Arithmetic               | Geometric |  |  |
|                         |                |                          |           |  |  |
| Domestic equity         | 37.0 %         | 7.05 %                   | 5.75 %    |  |  |
| International equity    | 18.0           | 8.10                     | 6.50      |  |  |
| Fixed Income            | 28.0           | 3.70                     | 3.25      |  |  |
| Real estate             | 9.0            | 6.35                     | 5.20      |  |  |
| Alternative investments | 7.0            |                          |           |  |  |
| Private equity          | -              | 11.30                    | 7.60      |  |  |
| Commodities             | -              | 4.65                     | 3.60      |  |  |
| Cash equivalents        | 1.0_           | 1.85                     | 1.85      |  |  |
|                         | 100.0.9/       |                          |           |  |  |
|                         | <u>100.0</u> % |                          |           |  |  |

Single Discount Rate. A single discount rate of 7.25 percent was used to measure the total pension liability. The projection of cash flow used to determine this single discount rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The single discount rate reflects:

- The long-term expected rate of return on pension plan investments (7.25 percent) during the period in which the fiduciary net position is projected to be sufficient to pay benefits, and
- The tax-exempt municipal bond rate (2.75 percent) based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date to the extent that the contributions for use with the long-term expected rate of return are not met.

Based on those assumptions, IMRF's fiduciary net position at December 31, 2019, was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25 percent and the municipal bond rate was not used.

# Note 5. Retirement Fund Commitments (Continued)

Changes in the Net Pension Liability. The following table shows the components of the District's annual pension liability and related plan fiduciary net position for the calendar year ended December 31, 2019:

|   | Total Pension<br>Liability<br>(A) | Plan Fiduciary<br>Net Position<br>(B) | Net Pension<br>Liability<br>(A) - (B) |

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the plan's net pension liability, calculated using a single discount rate of 7.25 percent, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1.0 percent lower or 1.0 percent higher:

|                               | Current |           |    |           |                       |         |
|-------------------------------|---------|-----------|----|-----------|-----------------------|---------|
|                               | 19      |           |    |           | % Increase<br>(8.25%) |         |
| Net pension liability (asset) | \$      | 4,505,650 | \$ | 2,137,988 | \$                    | 142,876 |

Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions. For the year ended June 30, 2020, the District recognized pension expense of \$983,393. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | <br>rred Outflows<br>Resources | Deferred Inflows of Resources |              |
|---|--------------------------------|-------------------------------|--------------|
| Differences between expected and actual experience Changes of assumptions   | \$<br>475,521<br>22,725        | \$                            | -            |
| Net difference between projected and actual earnings on pension plan investments  | -                              |                               | 858,166      |
| Total deferred amounts to be recognized in pension expense in future periods  Employer contributions subsequent to the measurement date | 498,246<br>280,567             |                               | 858,166<br>- |
|   | \$<br>778,813                  | \$                            | 858,166      |

## Note 5. Retirement Fund Commitments (Continued)

The District reported \$280,567 as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date and this will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future periods as follows:

## Year Ending June 30:

| 2021 | \$<br>215,053   |
|------|-----------------|
| 2022 | (248,651)       |
| 2023 | 83,183          |
| 2024 | <br>(409,505)   |
|      | \$<br>(359,920) |

#### Note 6. Debt Defeasance

In prior years, the District advance refunded certain general obligation bonds by placing a portion of the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. As of June 30, 2020, the outstanding balance of all defeased bonds totals \$10,195,000.

# Note 7. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction to assets; errors and omissions; injuries to employees; and natural disasters. The District participates in the Collective Liability Insurance Cooperative (CLIC) for its worker's compensation, general liability and property coverages. CLIC is an organization of school districts in Illinois, which have formed an association under the Illinois Intergovernmental Cooperation's Statute to pool their risk management needs.

The Cooperative agreement provides that CLIC will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$1,000,000 per occurrence and \$3,000,000 in aggregate for general liability and property. CLIC's member premiums are used to purchase commercial insurance. The District along with other members of CLIC has a contractual obligation to fund any premium deficiency of CLIC attributable to a membership year during which it was a member. CLIC can assess supplemental premiums to fund these premium deficiencies. In the past three years, the District made no supplemental premium payments to CLIC.

Each member District of CLIC has a vote in the election of the pool's Board of Directors. The District does not exercise any control over the activities of the pool beyond its election of the Board Members.

The District is a member of Educational Benefit Cooperative, which is a self-insured cooperative for employee health and accident claims. A purchased insurance policy limits the aggregate claims the District may potentially pay to \$500,000 per individual. All administration and claims processing is done by an independent administrator.

### **Notes to Basic Financial Statements**

## Note 8. Obligations Under Capital Leases

The District leases various equipment under capital leases which expire between June 2021 and April 2022. Monthly, quarterly, and annual lease payments, including interest ranging from 3.67 percent and 5.04 percent, range from \$7,544 to \$110,565.

The District incurred \$366,872 in principal and interest expense relating to the capital leases in the current year.

Minimum future lease payments under the capital leases together with the present value of the net minimum lease payments as of June 30, 2020, are as follows:

## Fiscal year ending June 30:

| 2021  | \$<br>366,872 |
|---|---------------|
| 2022  | 289,905       |
| Total minimum lease payments                | 656,777       |
| Less amount representing interest           | 27,507        |
| Present value of net minimum lease payments | \$<br>629,270 |

## Note 9. Other Financial Disclosures (FFS Level Only)

## **Budget Over-Expenditures**

For the year ended June 30, 2020, the District did not have any funds over-expend their budget.

### Interfund Loans

At June 30, 2020, the General Fund (a major governmental fund) loaned the Fire Prevention and Safety Fund (a nonmajor governmental fund) \$1,856. The loan represents an operating loan that is expected to be repaid in fiscal year 2021.

## Interfund Transfers

Interfund transfers for the year ended June 30, 2020, were as follows:

| <u>Fund</u>      | <br>Transfer In Trans |    |         |
|------------------|-----------------------|----|---------|
| General          | \$<br>-               | \$ | 200,000 |
| Capital projects | <br>200,000           |    |         |
|                  | \$<br>200,000         | \$ | 200,000 |

The purpose of the interfund transfer is to fund capital projects.

# Note 10. Post-Employment Benefits Other Than Pensions

## **District Plan**

Plan Description. The District provides post-employment health care benefits (OPEB) for retired employees. The District Group Health Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the District. The Plan provides medical insurance benefits to eligible retirees and their dependents. The benefits, benefit levels, employee contributions, and employer contributions are governed by the District Board and can only be amended by the District Board. The Plan is not accounted for as a trust fund and an irrevocable trust has not been established. The District does not issue a Plan financial report.

Benefits Provided. Administrative and Certified teachers receiving retiree healthcare benefits from the Teachers' Retirement Insurance Program (TRIP) receive an annual, fixed benefit equal to the cost of the full premium for individual coverage in the TRIP health insurance plan for 5 years after retirement or until age 65, whichever is less. Non-certified employees may elect to continue healthcare coverage, at their own expense, to be enrolled in the District's health insurance program until the age of Medicare eligibility.

Employees Covered by Benefit Terms. At June 30, 2020 the following employees were covered by the benefit terms:

| Inactive Plan Members currently receiving benefits | 16  |
|--|-----|
| Active Plan Members                                | 405 |
| Total  | 421 |

Total OPEB Liability. The District's total OPEB liability was measured as of June 30, 2020, and was determined by an actuarial valuation as of that date.

| Balance at July 1, 2019                | \$ 1,561,828 |
|--|--------------|
| Changes for the year:                  |              |
| Service cost                           | 111,516      |
| Interest on the total OPEB liability   | 41,794       |
| Difference between expected and actual |              |
| experience of the total OPEB liability | 1,930,577    |
| Changes of assumptions                 | 153,436      |
| Benefit payments                       | (119,466)    |
| Net changes                            | 2,117,857    |
|  |              |
| Balance at June 30, 2020               | \$ 3,679,685 |

# Note 10. Post-Employment Benefits Other Than Pensions (Continued)

Actuarial Assumptions. The following are the methods and assumptions used to determine total OPEB liability at June 30, 2020:

- The Actuarial Cost Method used was Entry Age Normal.
- The **Inflation Rate** was assumed to be 2.25 percent.
- Salary Increases were assumed to be 2.50 percent, including inflation.
- The Discount rate used was 2.21 percent.
- Mortality rates for IMRF employees and retirees were based on RP-2014 with Blue Collar Adjustment and MP-2016 Improvement, weighted per IMRF Experience Study dated November 8, 2017. Mortality rates for TRS employees and retirees were based on RP-2014 with Blue Collar Adjustment and MP-2016 Improvement, weighted per TRS Experience Study dated September 18, 2018.
- Retirement, termination and disability rates for IMRF employees and retirees were based on rates from the IMRF Experience Study dated November 8, 2017. Retirement, termination and disability rates for TRS employees and retirees were based rates from the TRS Experience Study dated September 18, 2018.
- For **Healthcare Cost Trend Rates**, actual trend rate used for fiscal year 2020. For fiscal years on and after 2021, the PPO Plan trend rate starts at 5.70 percent, increases to 6.50 percent in 2022 and gradually decreases to an ultimate trend of 5.00 percent in 2028; the TRIP Plan trend rate is held at a constant rate of 5.00 percent; and the HMO IL Plan trend rate starts at 5.30 percent, increases to 6.00 percent in 2022 and gradually decreases to an ultimate trend of 5.00 percent in 2026.

The following actuarial assumptions was changed from the prior year:

- The discount rate was changed from 2.79 percent to 2.21 percent to reflect the Bond Buyer 20-Bond GO Index as of June 30, 2020.
- The inflation rate was changed from 3.00 percent to 2.25 percent.
- The salary increases was changed from 4.00 percent to 2.50 percent.

Discount Rate. Since the Plan is financed on a pay-as-you-go basis, a long-term rate of return was not used and the discount rate used to measure the total OPEB liability was the 20-year general obligation bond index rate. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions would be made at the current rates. Based on those assumptions, the Plan's fiduciary net position was not projected to be sufficient to make projected OPEB payments for current active and inactive employees beyond the current year.

Sensitivity of the Employer's Proportionate Share of the Total OPEB Liability to Changes in the Single Discount Rate. The following presents the Plan's total OPEB liability, calculated using a Single Discount Rate of 2.21 percent, as well as what the Plan's total OPEB liability would be if it were calculated using a Single Discount rate that is one percentage point higher or lower than the current rate:

|                                       | Current |            |    |              |    |            |
|---------------------------------------|---------|------------|----|--------------|----|------------|
|                                       | 19      | % Decrease | D  | iscount Rate | 1  | % Increase |
|                                       |         | (1.21%)    |    | (2.21%)      |    | (3.21%)    |
| Employer's proportionate share of the |         |            |    |              |    |            |
| collective total OPEB liability       | \$      | 3,905,428  | \$ | 3,679,685    | \$ | 3,458,207  |

# Note 10. Post-Employment Benefits Other Than Pensions (Continued)

Sensitivity of Total OPEB Liability to Changes in the Healthcare Cost Trend Rate. The following presents the Plan's total OPEB liability, calculated using the healthcare cost trend rates as well as what the Plan's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point higher or lower, than the current healthcare cost trend rates. The key trend rates are 5.70 percent in 2021 decreasing to an ultimate trend rate of 5.00 percent in 2028.

|                                       | Healthcare Cost<br>Trend Rates |             |    |            |    |               |
|---------------------------------------|--------------------------------|-------------|----|------------|----|---------------|
|                                       | 1%                             | Decrease(a) | A  | Assumption | 1% | 6 Increase(b) |
| Employer's proportionate share of the |                                |             |    |            |    |               |
| collective total OPEB liability       | \$                             | 3,270,603   | \$ | 3,679,685  | \$ | 4,155,860     |

- (a) One percentage point decrease in healthcare trend rates are 4.70 percent in 2021 decreasing to an ultimate trend rate of 4.00 percent in 2028.
- (b) One percentage point increase in healthcare trend rates are 6.70 percent in 2021 decreasing to an ultimate trend rate of 6.00 percent in 2028.

OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB. For the year ended June 30, 2020, the District recognized OPEB expense of \$307,323. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|   | _  | erred Outflows<br>f Resources | _  | Deferred Inflows of Resources |  |
|---|----|-------------------------------|----|-------------------------------|--|
| Differences between expected and actual experience Changes of assumptions | \$ | 1,880,545<br>179,168          | \$ | -<br>127,416                  |  |
|   | \$ | 2,059,713                     | \$ | 127,416                       |  |

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense in future periods as follows:

## Fiscal Year Ending June 30:

| 2021       | \$ 154,0°          | 13 |
|------------|--------------------|----|
| 2022       | 154,0°             | 13 |

|            |                    |    |
|            | <u>\$ 1,932,29</u> | 97 |

## Note 10. Post-Employment Benefits Other Than Pensions (Continued)

## **Teachers' Health Insurance Security Fund**

Plan Description. The District participates in the Teachers' Health Insurance Security Fund (THIS) of the State of Illinois. THIS is a cost-sharing multiple-employer defined benefit post-employment healthcare plan (OPEB) established by the Illinois legislature for the benefit of eligible retired Illinois public school teachers employed outside the City of Chicago (members). All District employees receiving monthly benefits from the Teachers' Retirement System (TRS) who have at least eight years of creditable service with TRS, the survivor of an annuitant or benefit recipient who had at least eight years of creditable service or a recipient of a monthly disability benefit are eligible to enroll in THIS.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Plan and amendments to the Plan can be made only by legislative action with the Governor's approval. The Plan is administered by the Illinois Department of Central Management Services. The publicly available financial report of the Plan may be found on the website of the Illinois Auditor General. The current reports are listed under "Central Management Services" (http://www.auditor.illinois.gov/Audit-Reports/CMS-THISF.asp).

Benefits Provided. THIS provides medical, prescription, and behavioral health benefits for eligible retirees and their dependents, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan. The premiums charged reflect approximately a 75 percent subsidy for members that elect a managed care plan or elect the Teachers' Choice Health Plan (TCHP) if a managed care plan is either not available or only partially available. Members receive approximately a 50 percent subsidy if they elect the TCHP when a managed care plan is available. Medicare primary dependent beneficiaries enrolled in a managed care plan or in the TCHP when no managed care plan is available receive a premium subsidy.

Contributions. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6) specifies the contribution requirements of the participating school districts and covered employees. For the year ended June 30, 2020, required contributions are as follows:

- Active members contribute 1.24 percent of covered payroll.
- Employers contribute 0.92 percent of covered payroll. The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year. For the year ended June 30, 2020, the District paid \$209,434 to the THIS Fund, which was 100 percent of the required contribution. These contributions are deferred because they were paid after the June 30, 2019 measurement date.
- The State of Illinois makes contributions on behalf of the District. State contributions are intended to match contributions to the THIS Fund from active members. The State contributed 1.24 percent of covered payroll. For the year ended June 30, 2020, the District recognized revenue and expense of \$1,458,351 in the governmental activities based on the economic resources measurement basis and revenue and expenditures of \$282,281 in the General Fund based on the current financial resources measurement.
- Retired members contribute through premium payments based on the coverage elected, Medicare eligibility, and the age of the member and dependents. The premium for retired members is not permitted to increase by more than 5.0 percent per year by statute. The Federal Government provides a Medicare Part D subsidy.

# Note 10. Post-Employment Benefits Other Than Pensions (Continued)

OPEB Liabilities, Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources. At June 30, 2020, the District reported a liability for its proportionate share of the collective total OPEB liability that reflected a reduction for state pension support provided for the District. The state's support and total are for disclosure purposes only. The OPEB proportionate shares are as follows:

| District's proportionate share of the collective total OPEB liability   | \$ 24,593,660 |
|---|---------------|
| The State's proportionate share of the collective total OPEB            |               |
| liability associated with the District                                  | 33,142,445    |
| Total THIS total collective OPEB liability associated with the District | \$ 57,736,105 |

The collective total OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the collective total OPEB liability was determined by an actuarial valuation as June 30, 2018, and rolled forward to June 30, 2019.

The District's proportionate share of the total OPEB liability was based on the District's share of contributions to THIS for the measurement year ended June 30, 2019, relative to the contributions of all participating employers and the State during that period. At June 30, 2019, the District's proportion was 0.088858 percent, which was an increase of 0.000899 percent from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the District recognized the following for OPEB expense/expenditure and revenue pertaining to the District's employees:

|   | G<br> | General<br>Fund |               |
|---|-------|-----------------|---------------|
| State on-behalf contribution - OPEB revenue and expense/expenditure | \$    | 1,458,351       | \$<br>282,281 |
| District OPEB expense/expenditure                                   |       | 1,200,110       | 209,434       |
| Total OPEB expense/expenditure                                      | \$    | 2,658,461       | \$<br>491,715 |

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|  |    | red Outflows<br>Resources | Deferred Inflows of Resources |           |  |  |
|--|----|---------------------------|-------------------------------|-----------|--|--|
| Differences between expected and actual experience Changes in proportion and differences between District      | \$ | -                         | \$                            | 408,112   |  |  |
| contributions and proportionate share of contributions  Net difference between projected and actual investment |    | 999,773                   |                               | 601,941   |  |  |
| earnings   |    | -                         |                               | 805       |  |  |
| Changes of assumptions   |    | 9,323                     |                               | 2,819,234 |  |  |
| Total deferred amounts to be recognized in expense   |    |                           |                               |           |  |  |
| in future periods  |    | 1,009,096                 |                               | 3,830,092 |  |  |
| District contributions subsequent to the measurement date  |    | 209,434                   |                               |           |  |  |
|  | _  |                           |                               |           |  |  |
|  | \$ | 1,218,530                 | \$                            | 3,830,092 |  |  |

#### Note 10. Post-Employment Benefits Other Than Pensions (Continued)

The District reported \$209,434 as deferred outflows of resources resulting from District contributions subsequent to the measurement date that will be recognized as a reduction of the collective net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in expense as follows:

## Fiscal Year Ending June 30:

| 2021       | \$ (593,716) |
|------------|--------------|
| 2022       | (593,716)    |
| 2023       | (593,652)    |
| 2024       | (593,520)    |
| 2025       | (385,824)    |
| Thereafter | (60,568)     |
|            |              |

(2,820,996)

Actuarial assumptions. The total OPEB liability was determined by an actuarial valuation as of June 30, 2019, based on the entry age normal cost method and using the following actuarial assumptions:

Discount rate 3.13% at June 30, 2019

Inflation

Salary increases Depends on service and ranges from 9.50 percent at 1

year of service to 4.00 percent at 19 or more years of service. Salary increase includes a 3.25 percent wage

inflation assumption.

0 percent, net of OPEB plan investment expense, Investment rate of return

including inflation

Healthcare cost trend rates Actual trend used for fiscal year 2019. For fiscal years

on and after 2020, trend starts at 8.00 percent and 9.00 percent for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.81 and 4.50 percent, respectively. Additional trend rate of 0.31 percent% is added to non-Medicare cost on and after 2020 to account for the

Excise Tax.

Mortality Healthy life mortality, post-retirement: RP-2014 White

Collar Annuitant Tables, sex distinct with female rates multiplied by 70 percent for ages under 78 and 110 percent for ages 78 to 114 and male rates multiplied by 94 percent for ages under 81 and 110 percent for ages

81 to 114

Healthy life mortality, post-retirement beneficiary:

RP2015 Annuitant Tables, sex distinct with female and male rates multiplied by 96 percent and 116 percent,

respectively, for ages 50 to 114

Healthy life mortality, pre-retirement: RP-2014 White Collar Mortality Tables, sex distinct with female and male

rates multiplied by 104 percent for all ages

Disabled life mortality, post-retirement: RP-2014

Disabled Tables, sex distinct with female and male rates

multiplied by 117 percent for ages 45 to 99

## Note 10. Post-Employment Benefits Other Than Pensions (Continued)

(Future annual improvements in mortality are based on the Society of Actuaries Mortality Projections Scale MP-2017.)

Eighty percent of future retirees that are currently active are assumed to elect healthcare coverage, with 80 percent electing single coverage and 20 percent electing two-person coverage. Seventy percent of current deferred vested participants with at least seven years of service and younger than 70 as of June 30, 2018, are assumed to elect healthcare coverage, with 80 percent electing single coverage and 20 percent electing two-person coverage. Thirty-five percent of current deferred vested participants with at least seven years of service and younger than ag 70 as of June 30, 2018, are assumed to be eligible under SEDIP or TRIP before retirement and elect healthcare coverage, with 80 percent electing single coverage and 20 percent electing two-person coverage. The liability for this group is allocated equally to TRIP and SEGIP.

The pension-related assumptions disclosed in the TRS experience study for the period July 1, 2014 through June 30, 2017, were applied to the THIS actuarial valuation as of June 30, 2018.

The following OPEB-related assumption changes were made since the June 30, 2014 OPEB actuarial valuation date:

- The discount rate was changed from 3.62 percent at June 30, 2018 to 3.13 percent at June 30, 2019:
- The healthcare trend assumption was updated based on claim and enrollment experience through June 30, 2018, projected plan cost for plan year end June 30, 2019, premium changes through plan year end 2020, and expectation of future trend increases after June 30, 2019;
- The Excise trend rate adjustment was updated based on available premium and enrollment information as of June 30, 2019;
- Per capita claim costs for plan year end June 30, 2019, were updated based on projected claims and enrollment experience through June 30, 2019, and updated premium rates through plan year 2020; and
- Healthcare plan participation rates by plan were updated based on observed experience.

In December 2019, the Patient Protection Affordability and Care Act (PPACA) excise tax was repealed. Since the repeal of the excise tax occurred after the June 30, 2019 measurement date, the impact was not included in the plan's actuarial valuation. The impact on the total OPEB liability is unknown at this time.

The long-term expected rate of return assumption was set to zero. As such, ranges of expected future real rates of return by asset class were not developed.

Discount Rate. Since THIS is financed on a pay-as-you-go basis, a long-term rate of return was not used and the discount rate used to measure the total OPEB liability was the 20-year general obligation bond index rate (source was Fidelity Index's 20-year municipal GO AA Index). The discount rate as of June 30, 2019, was 3.13 percent, which was a decrease from the June 30, 2018, rate of 3.62 percent. The projection of cash flows used to determine the discount rate assumed that employee, employer, and State contributions would be made at the current statutorily-required rates. Based on those assumptions, THIS's fiduciary net position was not projected to be sufficient to make projected OPEB payments for current active and inactive employees beyond the current year.

# Note 10. Post-Employment Benefits Other Than Pensions (Continued)

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate. The following presents the District's net OPEB liability, calculated using a discount rate of 3.13 percent, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is one percentage point higher or lower than the current rate:

|                                       | Current       |               |               |  |  |  |  |  |
|---------------------------------------|---------------|---------------|---------------|--|--|--|--|--|
|                                       | 1% Decrease   | Discount Rate | 1% Increase   |  |  |  |  |  |
|                                       | (2.13%)       | (3.13%)       | (4.13%)       |  |  |  |  |  |

| collective net OPEB liability         | \$ 29,570,469 | \$ 24,593,660 | \$ 20,662,994 |  |  |  |  |  |

Sensitivity of Net OPEB Liability to Changes in the Healthcare Cost Trend Rate. The following presents the District's net OPEB liability, calculated using the healthcare cost trend rates as well as what the District's net OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point higher or lower, than the current healthcare cost trend rates.

- (a) One percentage point decrease in healthcare trend rates are 7.00 percent in 2020 decreasing to an ultimate trend rate of 3.81 percent in 2027, for non-Medicare coverage, and 8.00 percent in 2020 decreasing to an ultimate trend rate of 3.50 percent in 2029 for Medicare coverage.
- (c) One percentage point increase in healthcare trend rates are 9.00 percent in 2020 decreasing to an ultimate trend rate of 5.81 percent in 2027, for non-Medicare coverage, and 10.00 percent in 2020 decreasing to an ultimate trend rate of 5.50 percent in 2029 for Medicare coverage.

OPEB plan fiduciary net position. Detailed information about the THIS plan fiduciary net position is available in the separately issued THIS financial report.

Payable to the OPEB plan. The District had no outstanding amount of contributions to the THIS plan for the year ended June 30, 2020.

## Note 11. Commitments and Contingencies

The District received financial awards from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2020.

On January 30, 2020, the World Health Organization declared the coronavirus disease 2019 (Covid19) outbreak a "Public Health Emergency of International Concern" and on March 11, 2020, declared it to be a pandemic. It is unknown how long the adverse conditions associated with the coronavirus will last and what the complete financial effect will be to the District. To date, the District, as with most local governments in the State and Country, is experiencing declining revenue, and significant changes in the fair value of assets.

## Note 11. Commitments and Contingencies (Continued)

Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions, including expected credit losses on receivables and investments; Net Pension and OPEB liabilities and related deferred assets and liabilities; and contingent obligations.

## Note 12. Pronouncements Issued But Not Yet Adopted

In May 2020, GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance* that provides temporary relief in light of the COVID-19 pandemic. The effective dates of various pronouncements are postponed. The pronouncements below have been updated for the applicable implementation dates. The statements that might impact the District are as follows:

GASB Statement No. 84, *Fiduciary Activities*, will be effective for the District beginning with its year ending June 30, 2021. This statement establishes criteria for identifying fiduciary activities of all state and local governments and clarifies whether and how business-type activities should report their fiduciary activities. Statement 84 provides that governments should report activities meeting certain criteria in a fiduciary fund in the basic financial statements and present a statement of fiduciary net position and a statement of changes in fiduciary net position. Statement 84 also describes four fiduciary funds that should be reported, if applicable: pension/employee benefit trust funds; investment trust funds; private purpose trust funds; and custodial funds with fiduciary activities that are not held in a trust or equivalent arrangement that meets specific criteria.

GASB Statement No. 87, *Leases*, will be effective for the District beginning with its year ended June 30, 2022. The objective of this Statement is to better meet the information needs of financial statement users by improving the accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

GASB Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period, will be effective for the District beginning with its year ended June 30, 2022. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

GASB Statement No. 90, *Majority Equity Interests – an amendment of GASB Statements No. 14 and 61*, will be effective for the District beginning with its year ended June 30, 2021. This Statement improves financial reporting by providing users of financial statements with essential information related to presentation of majority equity interests in legally separate organizations that previously were reported inconsistently. In addition, it requires reporting of information about component units if the government acquires 100 percent equity interest in the component unit.

GASB Statement No. 91, *Conduit Debt Obligations*, will be effective for the District beginning with its year ending June 30, 2023. This Statement establishes a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice. Under Statement 91 a government entity no longer reports a liability for any conduit debt that it has issued; however, the issuer should recognize a liability for any additional commitments or voluntary commitments to support the debt service.

#### **Notes to Basic Financial Statements**

## Note 12. Pronouncements Issued but Not Yet Adopted (Continued)

GASB Statement No. 92, *Omnibus 2020*, addresses practice issues that have been identified during implementation and application of certain GASB statements and other technical pronouncements. The Statement addresses a variety of topics. The Statement will enhance comparability in the application of accounting and financial reporting requirements and will improve the consistency of authoritative literature. The Statement will be effective for the District with its year ending June 30, 2022.

GASB No. 93, *Replacement of Interbank Offered Rates* establishes how the District will report the change of any of its variable payment debt that are tied to the London Interbank Offered Rate (LIBOR) when the LIBOR standard is no longer used after December 31, 2021. This statement will be effective for the District with its year ending June 30, 2022.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, will improve financial reporting by addressing issues related to public-private and public-public partnerships and provides guidance for accounting and reporting for availability payment arrangements. This statement will be effective for the District with its year ending June 30, 2023.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITA) will improve financial reporting by establishing a definition for SBITAs and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The statement will be effective for the District with its year ending June 30, 2023.

GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, will result in more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. The requirements also will enhance the relevance, consistency, and comparability of (1) the information related to Section 457 plans that meet the definition of a pension plan and the benefits provided through those plans and (2) investment information for all Section 457 plans. The statement will be effective for the District with its year ending June 30, 2022.

Management of the District is still in the process of determining what effect, if any, the above statements will have on the basic financial statements and related disclosures.

#### Notes to Schedule:

Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2019 Contribution Rate\*

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which

are 12 months prior to the beginning of the fiscal year in which contributions are reported.

### Methods and Assumptions Used to Determine 2019 Contribution Rates:

Actuarial Cost Method: Aggregate entry age normal

Amortization Method: Level percentage of payroll, closed

Remaining Amortization Period: 24-year closed period

Asset Valuation Method: 5-year smoothed market; 20% corridor

Wage Growth: 3.25% Price Inflation: 2.50%

Salary Increases: 3.35% to 14.25%, including inflation

Investment Rate of Return: 7.50%

Retirement Age: Experience-based table of rates that are specific to the type of eligibility condition; last

updated for the 2017 valuation pursuant to an experience study of the period 2014 to

2016.

Mortality: For non-disabled retirees, an IMRF specific mortality table was used with fully

generational projection scale MP-2017 (base year 2015). The IMRF specific rates were

developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with

adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For

active members, an IMRF specific mortality table was used with fully generational

projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from

the RP-2014 Employee Mortality Table with adjustments to match current IMRF

experience.

Other Information:

Notes: There were no benefit changes during the year.

\*Based on Valuation Assumptions used in the December 31, 2017 actuarial valuation (note two-year lag between valuation and rate setting).

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.

2017

2016

2015

#### **Changes to Assumptions**

For the 2019, 2018, 2017 and 2016 measurement years, the assumed investment rate of return of 7.0 percent, an inflation rate of 2.5 percent and real return of 4.5 percent. Salary increases were assumed to vary by service credit but the rates of increase in the 2018 measurement year were slightly higher.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases that vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

These schedules are presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.

<sup>\*</sup> The amounts presented were determined as of the prior fiscal year-end.

## **Note to Required Supplementary Information**

## Note 1. Budgetary Basis of Accounting

Annual budgets are adopted for all governmental fund types, except the Agency Funds. The annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America at the fund level. All budgets lapse at fiscal year-end.

On or before July 1 of each year, the Superintendent is to submit for review by the Board of Education a proposed budget for the school year commencing on that date. After reviewing the proposed budget, the Board of Education holds public hearings and a final budget must be prepared and adopted no later than September 30.

The appropriated budget is prepared by fund and by function. The General Fund budget is further detailed by account (Education, Operations and Maintenance, and Working Cash). The Board of Education may make transfers between functions within a fund not exceeding in the aggregate 10 percent of the total of such fund, and may amend the total budget following the same procedures required to adopt the original budget. The legal level of budgetary control is at the fund level. No supplemental budget was required and there were no transfers between functions during the year.

For budgetary purposes, the District does not recognize as revenues received the retirement contributions made by the State of Illinois to the Teachers' Retirement System of the State of Illinois (TRS) and Teachers' Health Insurance Security Fund of the State of Illinois (THIS) on behalf of the District as well as the related expenditures paid.

The following schedule reconciles the revenues and expenditures on the budgetary basis with the amounts presented in accordance with the accounting principles generally accepted in the United States of America for the District's General Fund only.

| Revenues received - budgetary basis Unbudgeted retirement contributions made by the State - TRS Unbudgeted retirement contributions made by the State - THIS | \$ 41,309,407<br>9,169,729<br>282,281 |
|--|---------------------------------------|
| Revenues received - GAAP basis   | \$ 50,761,417                         |
| Expenditures paid - budgetary basis Unbudgeted retirement contributions made by the State - TRS Unbudgeted retirement contributions made by the State - THIS | \$ 40,026,287<br>9,169,729<br>282,281 |
| Expenditures paid - GAAP basis   | \$ 49,478,297                         |
