Independent Auditor's Report

Members of the Board of Education
Oak Lawn-Hometown School District 123
Oak Lawn, Illinois

Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oak Lawn-Hometown School District 123, Illinois (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining the modified cash basis of accounting is an acceptable basis for the preparation of the basic financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the basic financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the basic financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Oak Lawn-Hometown School District 123, Illinois, as of June 30, 2017, and the respective changes in modified cash basis financial position for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The basic financial statements are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information, such as the budgetary comparison information, combining and individual fund financial statements, schedule of assessed valuation, tax rates, extensions and collections, and schedules of debt service requirements, and the other information, such as the schedules of employer contributions and changes in net pension liabilities are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole on the basis of accounting described in Note 1.

The other information as listed in the table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 17, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Oak Lawn-Hometown School District 123

**Reconciliation of the Governmental Funds
Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities - Modified Cash Basis
Year Ended June 30, 2017**

Net change in fund balances—total governmental funds \$ (1,728,471)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures paid while governmental activities report depreciation expense to allocate those expenditures over the lives of the assets. This is the amount by which depreciation expense exceeded capital outlays and gain on disposals in the current period.

Capital outlays	\$ 675,869	
Depreciation expense	<u>(1,638,532)</u>	(962,663)

Premium on bonds is recorded as other financing sources in the fund financial statements, but the premium is recorded as a liability in the statement of net position and is amortized over the life of the bonds. This is the amount in the current period.

Amortization premium on bonds		661,680
-------------------------------	--	---------

Losses on refunded debt are not considered to represent a financial resource and, therefore, are not required in the fund financial statements, but the loss is recorded as a deferred outflow of resources in the statement of net position and is amortized over the life of the bonds. This is the amount in the current period.

Amortization deferred loss on refunding		(241,403)
---	--	-----------

Accreted interest on capital appreciation bonds is not reported in the governmental funds, however, it results in an increase in long-term liabilities on the statement of net position.

		(3,065,667)
--	--	-------------

Repayment of principal on long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Bond principal retirement		<u>6,260,000</u>
---------------------------	--	------------------

Change in net position of governmental activities		<u>\$ 923,476</u>
---	--	-------------------

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies

Nature of Operations

The District operates as a public school system governed by an elected seven-member board. The District is organized under The School Code of the State of Illinois, as amended. The District serves the communities of Oak Lawn and Hometown, Illinois.

The accounting policies of the District conform to the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the more significant accounting policies:

Financial Reporting Entity

As defined by generally accepted accounting principles established by the GASB, the financial reporting entity consists of the primary government, as well as component units, which are legally separate organizations for which elected officials of the primary government are financially accountable. Financial accountability is defined as:

- 1) Appointment of a voting majority of the component unit's board, and either a) the ability to impose will by the primary government, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- 2) Fiscal dependency on the primary government and the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government.

Financial benefit or financial burden is created if any one of the following relationships exists:

- 1) The primary government is legally entitled to or has access to the component unit's resources.
- 2) The primary government is legally required or has assumed the obligation to finance the deficits of, provide support to, the component unit.
- 3) The primary government is obligated in some manner for the other component unit's debt.

Based upon the application criteria, no component units have been included within the reporting entity.

Basis of Presentation

Government-Wide Financial Statements (GWFS): The government-wide Statement of Net Position and Statement of Activities report the overall financial activity of the District. Eliminations have been made to minimize the double counting of internal activities of the District. The financial activities of the District consist of governmental activities, which are primarily supported by taxes and intergovernmental revenues.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function (i.e., instruction, support services, etc.) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs (including fines and fees), and (b) grants and contributions that are restricted to meeting the operational requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Fiduciary funds are excluded from the government-wide financial statements.

Fund Financial Statements (FFS): Separate financial statements are provided for governmental funds and fiduciary (agency) funds, even though the latter are excluded from the government-wide financial statements. The fund financial statements provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The remaining governmental funds are aggregated and reported as nonmajor governmental funds. Additionally, the District administers an agency fund that is used to account for assets held by the District in an agency capacity. These funds are held on behalf of the students of the District.

The District administers the following major governmental funds:

General Fund – This is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Debt Service Fund – Accounts for resources accumulated and payments made for principal and interest on long-term general obligation debt from governmental funds.

Transportation Fund – Accounts for the resources associated with transporting pupils, such as costs of transportation, purchase of vehicles and insurance on buses.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

In the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), and financial position. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources (whether current or noncurrent, financial, or nonfinancial) are reported within the limitations of the modified cash basis of accounting. Equity is classified as net position.

In the fund financial statements, the "current financial resources" measurement focus, as applied to the modified cash basis of accounting, is used. Under a "current financial resources" measurement focus, only current financial assets, deferred outflows of resources, liabilities, and deferred inflows of resources are generally included on the balance sheet. The operating statement presents sources and uses of available spendable financial resources during a given period. The funds use fund balances as their measure of available spendable financial resources at the end of the period.

Basis of Accounting

In the government-wide and the fund financial statements, governmental activities are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, deferred inflows and outflows of resources, net position/fund equity, revenues, and expenditures/expenses when they result from cash transactions with a provision for depreciation, accreted interest on capital appreciation bonds, premiums paid on bonds and amortization of losses related to debt refundings in the government-wide statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

As a result of the use of the modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

If the District utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting and all government-wide financials would be presented on the accrual basis of accounting.

Property Taxes

Property taxes are levied each year on all taxable real property in the District on or before the last Tuesday in December. The 2016 tax levy was passed by the Board of Education on November 14, 2016, and attached as an enforceable lien on the property as of the preceding January 1. The taxes become due and collectible in March and September 2017, and are collected by the county collector, who in turn remits to the District its respective share. The District receives the remittances from the county treasurer approximately one month after collection. Property taxes are recorded upon receipt.

The Property Tax Extension Limitation Law imposes mandatory property tax limitations on the ability of taxing districts in Illinois to raise revenues through unlimited property tax increases. The increase in property tax extensions is limited to the lesser of 5 percent or the percentage increase in the Consumer Price Index for all Urban Consumers. The limitation includes taxes levied for purposes without a statutory maximum rate. The amount of the limitation may be adjusted for new property added or annexed to the tax base or due to voter approved increases.

Cash and Investments

Cash and investments consist of pooled cash and investments held by the Worth Township Trustees and are reported at cost.

Interfund Receivables, Payables, and Activity

Loans – amounts provided with a requirement for repayment. Interfund loans are reported as due from other funds in lender funds and due to other funds in borrower funds for short-term borrowings and advances to other funds in lender funds and advances from other funds in borrower funds for long-term borrowings. Amounts are eliminated in the government-wide statement of net position.

Transfers – flows of assets (such as cash or goods) without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets which include land, land improvements, buildings, and other equipment, are reported in the Statement of Net Position. Capital assets are defined as assets with an initial individual cost of more than \$2,500, and an estimated useful life of greater than one year. Additions or improvements that significantly extend the useful life of an asset, or that significantly increase the capacity of an asset are capitalized. Expenditures for asset acquisitions and improvements are stated as capital outlay expenditures in the governmental funds.

These assets have been valued at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at their estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Depreciation of capital assets is recorded in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Position and is provided on the straight-line basis over the following estimated useful lives:

Buildings	15 - 50 years
Land improvements	20 years
Equipment	5 - 20 years

Compensated Absences

Certified employees working less than 12 months a year do not earn vacation days, however, full-time 12 month employees earn 5 to 25 vacation days per year which vest as they accrue. Staff may accumulate a maximum of 5 vacation days. Days are paid out upon resignation or retirement at the employees' current daily rate. Vacation pay includes the actual salary plus salary-related payments.

All employees receive 14 sick days per year, three of which may be used for personal business, and these days accumulate to no maximum. These accumulated sick days do not vest and have not been recognized as a liability as they will not be paid in cash. Upon retirement, bargaining unit employees are paid \$30 per day for each day not used for TRS/IMRF purposes. Up to 340 days may be contributed toward retirement. Certified employees are not paid for days contributed toward TRS/IMRF retirement. Bargaining Unit employees who quit, rather than retire, are not paid out any sick days but may contribute them toward early retirement.

Long-Term Obligations

In the government-wide financial statements, long-term debt is reported as liabilities in the Statement of Net Position. Bond premiums and discounts are recorded as liabilities and amortized over the life of the bonds. Deferred losses on refunding are amortized over the life of the bonds and are reported as deferred outflows of resources in the Statement of Net Position.

In the fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures or expenses.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Net Position

The Statement of Net Position presents the District's non-fiduciary assets and liabilities with the difference reported in three categories:

Net investment in capital assets consists of capital assets and deferred outflows of resources that are attributable to the acquisition, construction, or improvement of those assets, net of accumulated depreciation and reduced by outstanding balances for bonds.

Restricted net positions result when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net positions consist of net positions that do not meet the criteria of the two preceding categories.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Balances

Within the governmental fund types, the District's fund balances are reported in one of the following classifications:

Nonspendable – includes amounts that cannot be spent because they are either: a) not in spendable form; or b) legally or contractually required to be maintained intact. At June 30, 2017, the District had no nonspendable fund balances.

Restricted – includes amounts that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority. Committed amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District's highest level of decision-making authority rests with the District's Board of Education. The District passes formal resolutions to commit their fund balances. At June 30, 2017, the District had no committed fund balances.

Assigned – includes amounts that are constrained by the District's *intent* to be used for specific purposes, but that are neither restricted nor committed. Intent is expressed by: a) the District's Board of Education itself; or b) a body or official to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. The District's Board of Education has not delegated authority to any other body or official to assign amounts for a specific purpose within the General Fund. Within the other governmental fund types (special revenue, debt service, capital projects) resources are assigned in accordance with the established fund purpose and approved budget/appropriation. Residual fund balances in these fund types that are not restricted or committed are reported as assigned. At June 30, 2017, the District had no assigned fund balances.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Fund Balances (continued)

Unassigned – includes the residual fund balance that has not been restricted, committed, or assigned within the general fund and unassigned deficit fund balances of other governmental funds.

It is the District's policy to consider restricted resources to have been spent first when an expenditure is incurred for which both restricted and unrestricted (i.e., committed, assigned or unassigned fund balances) are available, followed by committed and then assigned fund balances. Unassigned amounts are used only after the other resources have been used.

The General Fund includes the Working Cash stabilization account. Under the State of Illinois School Code (School Code), the District is authorized to incur indebtedness and issue bonds and to levy a tax annually on all taxable property of the District in order to enable the District to have in its treasury at all time sufficient money to meet demands thereon. These funds may be lent to other District governmental funds in need, but may only be expended for other purposes upon the passage of a resolution by the Board of Education to abolish or abate the fund. At June 30, 2017, the District had working cash stabilization fund balances of \$9,863,699 that have been classified as unassigned fund balances in the general fund.

Elimination and Reclassification

In the process of aggregating data for the government-wide Statement of Activities, some amounts reported as interfund activity and interfund balances in the funds are eliminated or reclassified.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 2. Budgetary Information

Budgets and Budgetary Information

Annual budgets are adopted for all governmental fund types. The annual budgets are adopted on a basis consistent with the modified cash basis of accounting at the fund level. All budgets lapse at fiscal year-end.

No later than the first regular meeting in August, the Superintendent is to submit for review by the Board of Education a tentative budget for the school year commencing on that date. After reviewing the tentative budget, the Board of Education holds public hearings and a final budget must be prepared and adopted no later than September 30.

The appropriated budget is prepared by fund and by function. The Board of Education may make transfers between functions within a fund not exceeding in the aggregate 10 percent of the total of such fund, and may amend the total budget following the same procedures required to adopt the original budget. The legal level of budgetary control is at the fund level. There were no supplemental budgets adopted during the year. There were no transfers between functions during the year.

Budget Over-Expenditures

The following funds over-expended their budgets at June 30, 2017:

<u>Fund</u>	<u>Amount</u>
Debt Service	\$ 869,336
Transportation	189,330

Note 3. Cash and Investments

Substantially all cash and investments are deposits and investments maintained in pooled accounts held in the name of the Worth Township Trustees.

Deposits

State statutes authorize the District to make deposits directly or through its Township Trustees in interest-bearing depository accounts in federally insured and/or state chartered banks, savings and loan associations and credit unions. As of June 30, 2017, the District had deposits with federally insured financial institutions of \$139,142 with bank balances totaling \$144,757.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District policy is to have all bank balances fully insured or collateralized. As of June 30, 2017, none of the District's bank balances were exposed to custodial credit risk.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 3. Cash and Investments (Continued)

Investments

As of June 30, 2017, the District had the following investments:

	Fair Value	Investment Maturities (In Years)
Pooled cash and investments held by the Worth Township Trustees	<u>\$ 17,751,373</u>	N/A

The fair value of pooled cash and investments held by the Worth Township Trustees is based on the net asset value per unit based on the amortized cost of the underlying securities at June 30, 2017, as determined by the Worth Township Trustees. The fair value is derived daily based on the net asset value of the underlying securities. There are no redemption restrictions or unfunded commitments related to the District's pooled cash and investments held by the Worth Township Trustees. Based on the District's modified cash bases of accounting, the District's investments are recorded at amortized cost.

Of the total pooled cash and investments held by Worth Township Trustees, maturities are approximately as follows: less than 1 year (30.03 percent), 1 to 5 years (50.15 percent), 6-10 years (16.09 percent), and greater than 10 years (3.73 percent). The pooled accounts hold the following types of investments: U.S. Treasury Securities, Federal National Mortgage Association (FNMA), Federal Home Loan Bank (FHLB), Federal Farm Credit Bank (FFCB), FHLMC (Freddie Mac), GNMA (Ginnie Mae), Illinois School District Liquid Asset Fund Plus (ISDLAF+), Municipal Bonds, Commercial Paper and Illinois Funds.

Interest Rate Risk - The District's investment policy states the investment portfolio shall provide sufficient liquidity to pay District obligations as they become due. In this regard, maturity and marketability of investments shall be considered.

Credit Risk - State statutes authorize the District to invest directly or through its Township Trustees in direct obligations of, or obligations guaranteed by, the United States Treasury or agencies of the United States and short-term obligations of corporations organized in the United States with assets exceeding \$500,000,000.

The District is also authorized to invest directly or through its Township Trustees in the Illinois School District Liquid Asset Fund Plus and the Illinois Funds, which invests member deposits, on a pooled basis, primarily in short-term certificates of deposit and in high-rated, short-term obligations of major United States corporations and banks.

Concentration of Credit Risk - The District investment policy requires that the investment portfolio is diversified as to materials and investments, as appropriate to the nature, purpose, and amounts of the funds. The policy does not limit the investments in any single issuer.

Custodial Credit Risk – Investments - For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

Information related to the interest rate risk, credit risk, concentration of credit risk, and custodial credit risk of the other cash and investments held by the Worth Township Trustees can be obtained from the Worth Township Trustees at 10720 South Kenton, Oak Lawn, Illinois 60453, which issues a financial report that includes financial statements and required supplementary information. This report can also be obtained online at www.worthst.org/Public_Documents.html.

Capital assets, net	<u>\$ 41,925,464</u>	<u>\$ (819,938)</u>	<u>\$ -</u>	<u>\$ 40,962,801</u>

Depreciation expense was charged to governmental activities as follows:

Instruction	\$ 1,001,957
Support services	632,256
Community services	4,319
	<u>\$ 1,638,532</u>

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 5. Long-Term Obligations

Long-term obligations as of June 30, 2017, and a summary of activity for the year then ended are as follows:

	Outstanding Debt as of July 1, 2016	Additions	Reductions	Outstanding Debt as of June 30, 2017	Due Within One Year
General obligation bonds	\$ 13,865,000	\$ -	\$ (1,710,000)	\$ 12,155,000	\$ 850,000
Capital appreciation bonds	36,073,210	3,065,667	(4,550,000)	34,588,877	1,258,685
Unamortized bond premiums	4,907,496	-	(661,680)	4,245,816	-
	<u>\$ 54,845,706</u>	<u>\$ 3,065,667</u>	<u>\$ (6,921,680)</u>	<u>\$ 50,989,693</u>	<u>\$ 2,108,685</u>

Additions to capital appreciation bonds represent current year accreted interest.

The District's estimated legal debt limitation of \$42,895,024, based on 6.9 percent of the 2016 equalized assessed valuation of \$621,667,010, less outstanding debt of \$22,076,685 after deletion of cumulative accreted interest of \$24,667,192 included as principal payable in the above capital appreciation bond schedules results in an estimated legal debt margin of \$20,818,339 as of June 30, 2017.

Interest rates range from 4.00 percent to 6.24 percent on the outstanding general obligation bonds and range from 9.00 percent to 13.50 percent on outstanding capital appreciation bonds. As of June 30, 2017, the future annual debt service requirements are as follows:

Year Ending June 30,	General Obligation Bonds		Capital Appreciation Bonds		Total
	Principal	Interest	Principal	Interest	
2018	\$ 850,000	\$ 623,509	\$ 1,258,685	\$ 3,291,315	\$ 6,023,509
2019	890,000	580,378	1,298,838	3,856,162	6,625,378
2020	935,000	534,080	1,179,661	3,975,339	6,624,080
2021	980,000	485,397	1,066,866	4,088,134	6,620,397
2022	1,030,000	433,914	1,044,990	4,775,010	7,283,914
2022-2027	7,470,000	1,281,710	4,072,645	34,587,355	47,411,710
	<u>\$ 12,155,000</u>	<u>\$ 3,938,988</u>	<u>\$ 9,921,685</u>	<u>\$ 54,573,315</u>	<u>\$ 80,588,988</u>

Interest maturities include \$24,667,192 in accreted interest on capital appreciation bonds, which is included in long-term debt on the statement of net position.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 6. Retirement Fund Commitments

Teachers' Retirement System

Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the TRS' administration.

TRS issues a publicly available financial report that can be obtained at <http://trsil.org>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, Illinois 62794; or by calling (888) 678-3675.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the TRS for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the TRS up to 90 percent of the total actuarial liabilities of the TRS by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2017, was 9.4 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 6. Retirement Fund Commitments (Continued)

On behalf contributions to TRS. The state of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2017, state of Illinois contributions in the amount of \$15,637,900 were paid directly to TRS based on the state's proportionate share of the collective net pension liability associated with the employer.

2.2 formula contributions. Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2017, were \$121,095.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under a policy adopted by the TRS Board of Trustees that has been in effect since the fiscal year ended June 30, 2006, employer contributions for employees paid from federal and special trust funds will be the same as the state contribution rate to TRS. Public Act 98-0674 now requires the two rates to be the same.

For the year ended June 30, 2017, the employer pension contribution was 38.54 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2017, salaries totaling \$318,365 were paid from federal and special trust funds that required employer contributions of \$122,698.

Employer retirement cost contributions. Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the current program is 146.5 percent and applies when the member is age 55 at retirement. For the year ended June 30, 2017, the employer was not required to make payments to TRS for employer ERO contributions.

The employer is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2017, the employer was not required to make payments to TRS for employer contributions due on salary increases in excess of 6 percent or for sick leave days granted in excess of the normal annual allotment.

Net Pension Liability, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2016, relative to the projected contributions of all participating TRS employers and the state during that period.

Since the net pension liability, deferred outflows of resources, and deferred inflows of resources related to the pension are not the result of cash transactions, the modified cash basis of accounting does not allow for these to be recorded on the government-wide financial statements.

The schedule of the employer's proportionate share of the net pension liability and the schedule of employer contributions are presented as other information following the notes to the financial statements.

Notes to Basic Financial Statements

Note 6. Retirement Fund Commitments (Continued)

Teachers' Health Insurance Security Fund

The District (employer) participates in the Teachers' Health Insurance Security (THIS) Fund, a cost sharing, multiple-employer defined benefit postemployment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Beginning February 1, 2014, annuitants who were enrolled in Medicare Parts A and B may be eligible to enroll in Medicare Advantage plans.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by CMS with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund. The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On behalf contributions to THIS Fund

The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to the THIS Fund from active members which were 1.12 percent of pay during the year ended June 30, 2017. State of Illinois contributions were \$233,839.

Employer contributions to THIS

The District (employer) also makes contributions to the THIS Fund. The employer THIS Fund contribution was 0.84 percent during the year ended June 30, 2017. For the year ended June 30, 2017, the District paid \$175,379 to the THIS Fund, which was 100 percent of the required contribution.

Further information on THIS Fund

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: <http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp>. The 2017 report is listed under "Central Management Services." Prior reports are available under "Healthcare and Family Services."

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 6. Retirement Fund Commitments (Continued)

Illinois Municipal Retirement

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The district plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

The District participates in the Regular Plan (RP). Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3 percent of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3 percent of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2016, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	130
Inactive plan members entitled to but not yet receiving benefits	290
Active plan members	129
Total	549

Contributions

As set by statute, the District's regular plan members are required to contribute 4.50 percent of their annual covered salary. The statutes require employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's required and actual contribution rates for the calendar years ending December 31, 2017 and 2016, were 14.58 percent and 15.67 percent, respectively. For fiscal year 2017, the District contributed \$576,118 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefit rate is set by statute.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 6. Retirement Fund Commitments (Continued)

Net Pension Liability, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

The District's net pension liability was measured as of December 31, 2016. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. Since the net pension liability, deferred outflows of resources, and deferred inflows of resources related to the pension are not the result of cash transactions, the modified cash basis of accounting does not allow for these to be recorded on the government-wide financial statements.

The schedule of changes in net pension liability and related ratios and the schedule of employer contributions are presented as other information following the notes to the financial statements.

Note 7. Debt Defeasance

In prior years, the District advance refunded certain general obligation bonds by placing a portion of the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. As of June 30, 2017, the outstanding balance of all defeased bonds totals \$1,904,648.

Note 8. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction to assets; errors and omissions; injuries to employees; and natural disasters. The District participates in the Collective Liability Insurance Cooperative (CLIC) for its worker's compensation, general liability and property coverages. CLIC is an organization of school districts in Illinois, which have formed an association under the Illinois Intergovernmental Cooperation's Statute to pool its risk management needs.

The Cooperative agreement provides that CLIC will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$1,000,000 per occurrence and \$3,000,000 in aggregate for general liability and property. CLIC's member premiums are used to purchase commercial insurance. The District along with other members of CLIC has a contractual obligation to fund any premium deficiency of CLIC attributable to a membership year during which it was a member. CLIC can assess supplemental premiums to fund these premium deficiencies. In the past three years, the District made no supplemental premium payments to CLIC.

Each member District of CLIC has a vote in the election of the pool's Board of Directors. The District does not exercise any control over the activities of the pool beyond its election of the Board Members.

The District is a member of Educational Benefit Cooperative, which is a self-insured cooperative for employee health and accident claims. A purchased insurance policy limits the aggregate claims the District may potentially pay to \$500,000 per individual. All administration and claims processing is done by an independent administrator.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 9. Obligations Under Capital Leases

The District leases various equipment under capital leases which expire between July 2017 and April 2022. Monthly, quarterly, and annual lease payments, including interest ranging from 3.67 percent and 4.90 percent, range from \$7,544 to \$110,565. Since the capital leases are not the result of a cash transaction, the modified cash basis of accounting does not allow for the capital leases to be recorded as a liability on the government-wide financial statements. In addition the cost of the equipment acquired under the capital lease is not capitalized and the resulting depreciation expense is not recorded on the government-wide financial statements.

The District incurred \$279,574 in principal and interest expense relating to the capital leases in the current year.

Minimum future lease payments under the capital leases together with the present value of the net minimum lease payments as of June 30, 2017, are as follows:

Fiscal year ending June 30:

2018	\$ 193,169
2019	193,169
2020	193,169
2021	193,169
2022	193,169
Total minimum lease payments	<u>965,845</u>
Less amount representing interest	<u>70,755</u>
Present value of net minimum lease payments	<u><u>\$ 895,090</u></u>

Note 10. Other Financial Disclosures (FFS Level Only)

Interfund Loans

At June 30, 2017, the General Fund (a major governmental fund) loaned the Municipal Retirement / Social Security Fund (a nonmajor governmental fund) \$13,684. The loan represents an operating loan that is expected to be repaid in fiscal year 2017.

Interfund Transfers

Interfund transfers for the year ended June 30, 2017, were as follows:

<u>Fund</u>	<u>Transfer In</u>	<u>Transfer Out</u>
General	\$ -	\$ 890,286
Capital projects	890,286	-
	<u>\$ 890,286</u>	<u>\$ 890,286</u>

The purpose of the interfund transfer is to fund capital projects.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 11. Post-Retirement Health Care Plan

Plan Description

The District provides post-employment health care benefits (OPEB) for retired employees. The District Group Health Plan (the Plan) is a single-employer defined benefit healthcare plan administered by the District. The Plan provides medical insurance benefits to eligible retirees and their dependents. The benefits, benefit levels, employee contributions, and employer contributions are governed by the District Board and can only be amended by the District Board. The Plan is not accounted for as a trust fund and an irrevocable trust has not been established. The District does not issue a Plan financial report.

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the District Board and are detailed in the "Plan Document." The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2017, the District did not contribute to the plan. At June 30, 2017, the plan was unfunded. The estimated amount of the unfunded accrued liability has not been determined.

Annual OPEB Cost and Net OPEB Obligation

Since the net OPEB obligation is not the result of a cash transaction, the modified cash basis of accounting does not allow for the net OPEB obligation to be recorded as a liability on the government-wide financial statements.

The District has not engaged an actuary to determine the *annual required contribution* (ARC) to the OPEB plan. The ARC is an amount actuarially determined in accordance with the parameters of GASB Statement 45 that represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

Additionally, since the net OPEB obligation does not arise out of a cash transaction, it is not recorded in the accompanying financial statements. The amount of the net OPEB obligation has not been determined.

Note 12. Commitments and Contingencies

The District received financial awards from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2017.

Oak Lawn-Hometown School District 123

Notes to Basic Financial Statements

Note 13. Pronouncements Issued But Not Yet Adopted

The following is a description of the GASB authoritative pronouncements which have been issued but not yet adopted by the District.

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, will be effective for the District beginning with its year ending June 30, 2018. This Statement addresses accounting and financial reporting for OPEB that is provided to the employees of state and local governmental employers.

GASB Statement No. 81, *Irrevocable Split-Interest Agreements*, will be effective for the District beginning with its year ending June 30, 2018. The objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

GASB Statement No. 84, *Fiduciary Activities*, will be effective for the District beginning with its year ended June 30, 2020. This statement provides guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

GASB Statement No. 85, *Omnibus 2017*, will be effective for the District beginning with its year ended June 30, 2018. The objective of this statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits).

Management has not determined the impact, if any, these Statements will have on the financial position and results of operations of the District.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Members of the Board of Education
Oak Lawn-Hometown School District 123
Oak Lawn, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the modified cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Oak Lawn-Hometown School District 123, Illinois (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 17, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Oak Lawn, Illinois

Report on Compliance for Each Major Federal Program

We have audited Oak Lawn-Hometown School District 123, Illinois' (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Oak Lawn-Hometown School District 123, Illinois complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the modified cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated October 17, 2017, which contained unmodified opinions on those financial statements. Our audit for the year ended June 30, 2017 was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards for the year ended June 30, 2017 is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The 2017 information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2017 schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2017.

We have previously audited, in accordance with auditing standards generally accepted in the United States and *Government Auditing Standards* issued by the Comptroller General of the United States, the District's modified cash basis financial statements as of and for the year ended June 30, 2016 (not presented herein), and have issued our report thereon dated December 5, 2016, which contained unmodified opinions on the respective financial statements of the governmental activities, the major fund, and the aggregate remaining fund information. The schedule of expenditures of federal awards for the year ended June 30, 2016, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2016 financial statements. The 2016 information has been subjected to the auditing procedures applied in the audit of the 2016 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those basic financial statements or to those basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2016 schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2016.

Notes to the Schedule of Expenditures of Federal Awards

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Oak Lawn-Hometown School District 123 (the District) under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the District, it is not intended to and does not present the financial position or changes in net position of the District.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified cash basis of accounting which is the same basis used in preparing the basic financial statements of the District. No funds were identified as having been provided to subrecipients by the District under the meaning of the Uniform Guidance, and accordingly, no funds identified in the Schedule are attributable to subrecipient entities as required under the Uniform Guidance. The District has elected to use the 10 percent de minimis indirect cost rate, where applicable, as allowed under the Uniform Guidance. There were no federal awards expended for insurance or any loans or loan guarantees outstanding at June 30, 2017 and 2016. For the years ended June 30, 2017 and 2016, the District did receive \$90,080 and \$50,724, respectively, of noncash assistance in the form of food commodities that is included in the Schedule under the Department of Agriculture, CFDA 10.555.
